

Artificial Intelligence

Artificial Intelligence (AI) enables computers to perform tasks that normally require human intelligence.

Machine Learning

Machine Learning is a branch of AI where systems learn patterns from data.

Deep Learning

Deep Learning uses neural networks with multiple layers to learn complex patterns.

RAG

RAG stands for Retrieval-Augmented Generation. It retrieves relevant information from documents and gives that information to an LLM to generate an accurate answer.

LLM

Large Language Models are AI models trained on large amounts of text and can generate human-like responses.

AI Agents

AI Agents can use reasoning, tools, memory, and retrieval systems to complete tasks.
